

CREATE FLASK PROJECT

Task ID	TSK-157501
Team ID	PNT2022TMID44584
Student Name	Vignesh M
Student Roll Number	731719205023

The screenshot displays a Visual Studio Code editor with a Flask application. The Explorer panel on the left shows the project structure with files `app.py` and `index.html`. The main editor window shows the `app.py` file with the following code:

```
1 from flask import Flask
2 import os
3 app = Flask(__name__)
4
5 @app.route("/")
6 def home():
7     return("!!!HELLO WORLD!!!")
8
9 if __name__ == "__main__":
10     port = os.environ.get("PORT", 5000)
11     app.run(port=port, host="0.0.0.0")
12
```

The right side of the image shows a web browser window at `localhost:5000` displaying the output: `!!!HELLO WORLD!!!`.

The bottom panel shows the terminal output:

```
PS C:\Users\DELL\Documents\workspace\app> python app.py
* Serving Flask app 'app'
